

News and Views . . . and what have you by BOB CRAIG

As it turned out, it was unfortunate that the mass polio vaccine drive scheduled here Sunday was postponed for two weeks following all of the plans, preparation and publicity that had been made. But because of the seriousness of the reports on the vaccine it was by far better to postpone, and be sure, than to risk the possibility of something going wrong.

I hope that no one will stay away from the vaccine when it is given here because of the unfavorable publicity given the vaccine. The Type I that will be given at this first clinic has been given a clean bill of health.

The three types are completely separate and do not all have to be taken for each to work. By the time the Type III vaccine will be given it is hoped that more research will make this type safe for everyone. At the present time it is recommended for children under 18 only.

People are funny . . . last week very few people went to Childress because we didn't have a chance to win and this week you hear some say that they aren't going to Spur because it won't be much of a contest for the Pipers.

Hamlin lost one of its best citizens and backers last week when Bowen Pope passed away at the Hamlin Memorial Hospital, the hospital that he was instrumental in bringing to Hamlin.

Mr. Pope, at 84, was still active in the affairs of the town that he loved up until he entered the hospital a week prior to his death.

As publisher of this newspaper for 31 years he played a very big part in making Hamlin what it is today.

Not only did Hamlin lose a strong backer but the Pied Piper football team lost a good going to all of the games possible supporter. Mr. Pope was still in his eighties—driving to some of the out-of-town games by himself if necessary. He will be missed by many.

At Tuesday night's city council meeting Freese, Nichols and Endress, consulting engineers of Fort Worth, presented to the city fathers the results of two years work in what has been called a 'Master Plan' for Hamlin.

The results of this study will be presented in this paper in a series of articles as soon as it is possible to work them up.

The plan is based on the projected growth of Hamlin over the next 25 years and the firm's studies predict the city will have a population of 7,481 in 1985. The reasons for this prediction are in the report and will be covered in the series.

Ex-Student Books Still Available

Distribution of the Ex-student Directories is continuing this week as preparations are being made to mail out the directories that have not been picked up by former students or their families.

The directories were printed before the Homecoming Sept. 8 and were given to all those registered for the event. Those who registered but were unable to attend the Homecoming are asked to pick up their directory at the office of James E. Rodgers, CPA, new president of the group, or at the Hamlin Herald. The out of town directories not spoken for by the end of the week will be mailed out by Mrs. Pete Bond and Mrs. Jack Owen.

There will be copies for sale at the Hamlin Herald and at Rodgers' office as long as the supply lasts.

D. V. Sauls has announced the forthcoming election of a supervisor within Sub-division No. 4 of the California Creek Soil Conservation District 515. The election will be held Oct. 2 at 8 p.m. in the Hamlin High School Agriculture Building.

The annual Salvation Army campaign got underway Tuesday morning with a coffee at Lee's Steak House, according to Joe Hudspeth, campaign chairman.

SERVICES HELD SATURDAY FOR FORMER NEWSPAPER PUBLISHER

Funeral services were conducted here Saturday at 3 p.m. for Bowen Pope, 84, former publisher of the Hamlin Herald, a state legislator in the 1920's and founder of the Hamlin Memorial Hospital.

Mr. Pope died at 12:45 p.m. Thursday in the hospital which had been built as a result of his untiring effort. He had been hospitalized for one week.

Born Sept. 5, 1878, in Smith County, Tenn., Mr. Pope moved with his family to Hunt County at the age of 12. He married Lessie Sigler on Sept. 4, 1908, at Tulsa, where he was high school principal and she was a teacher.

In 1909 Mr. Pope became principal of the Canyon schools. When West Texas Teachers College was established there the next year he worked in the summer as a carpenter, helping to erect the first building on the campus. He then enrolled as a student in the college and finished in 1911 as a member of the first graduating class.

Following graduation, Mr. Pope became superintendent of schools at Pampa and later held the same position in the Chillicothe schools for two years. At Chillicothe he became interested in the newspaper profession and decided to leave the teaching field.

When the Papes moved to Hamlin in 1914 he became publisher and owner of the Hamlin Herald. He was elected to the legislature in 1924 and served three two-year terms.

In November of 1945 he retired from the publishing business and began to draw up plans and a charter to initiate a hospital organization among Hamlin residents, an idea which he had promoted through his newspaper.

Three years later his efforts were rewarded when he saw the completion of the campaign in the opening of Hamlin Memorial Hospital Feb. 15, 1948.

A living memorial to the men and women who died for their country in the two World Wars.

The hospital has since had two additions to the building and much equipment added.

Mrs. Pope died May 14, 1960. Mr. Pope married Mrs. Bernice Neff at Oklahoma City.

Hospital Lab Given Approval For Testing

The Hamlin Memorial Hospital was notified Sept. 12 that the laboratory had been approved for Texas pre-marital and pre-natal tests.

The announcement was made by James E. Teavy, M. D., Commissioner of the State Department of Health.

The laboratory is under the supervision of Ernest William Montgomery, M.T., who joined the staff August 1 this year.

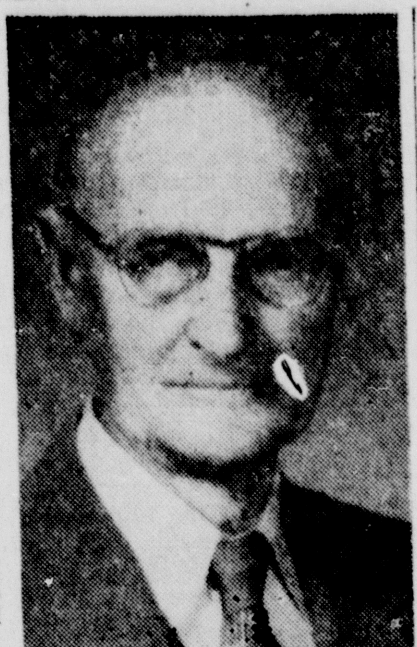

Montgomery came here from Colorado City where he had been director of the clinical laboratory and chief X-ray technician at Root Memorial Hospital.

Montgomery and his wife, the former Marquitta Barton of Aspermont, have two children, Lila Kathryn, 2; and James David, 5 months. They live at 237 NW Ave. J. They are members of the First Methodist Church.

Oral Vaccine Set Sunday, Sept. 30

Mrs. Rudy V. Hamric, program co-ordinator for the mass oral vaccine drive, announced this week that the first dose (Type I) will be given here on Sept. 30 from 1 to 7 p.m. in the Hamlin High School gymnasium.

The drive originally scheduled for this past Sunday was postponed following a report Sept. 13 that a number of cases of polio among persons receiving the new Sabin oral vaccine were reported by Canadian authorities.

The local medical authorities decided along with others in the Jones-Taylor Medical Society to postpone the vaccine Sunday to allow further investigation of the situation.

It has now been decided to follow a statement issued by the State Health Department which recommended that Types I and II of the oral vaccine be continued and "accelerated since most of the cases in Texas have been Type I."

The dose in question was Type III and state officials have now approved its use for school age children and below.

A decision will be made later on whether adults should be offered the Type III, the dose that seems to be questionable for use by adults.

Dr. M. L. Smith, City public health officer, said that dates for the Type III and the Type II doses would be announced later.

Type I, the first dose, is for the deadly polio, Type III, the second dose, is for the crippling type and Type II is for the least serious type of the disease.

In Washington, Dr. Luther L. Terry, surgeon general of the Public Health Service, said "I don't believe there is any reason in the world for complete abandonment of plans for mass community immunizations of children with Sabin oral polio vaccine."

Terry met last week with a

committee of polio experts and studied in detail 15 cases of polio that have occurred in persons who received one of the three types of Sabin oral vaccine.

There were two cases in the Type I group, one in Type II and 13 in Type III. All of those

stricken with Type III polio were adults.

He told a news conference following the meeting "The committee believes there is sufficient evidence to indicate at least some of the cases have been caused by the vaccine."

This also will be first time for the Pipers to have a weight advantage over their opponents. The Bulldogs average 152 pounds in the line and 150 pounds in the backfield.

Leading the Spur attack will be quarterback Benny Hahn, 67 pounds, who is rated as the top back in the tight T formation used by Spur. Best lineman is center George Neaves who weighs 148 pounds.

PIPER'S STOP BOBCAT ATTACK, PULL 20-0 UPSET

A strong defensive effort bore the fruits of field position and the ballgame as the Pipers upset the talented Childress Bobcats Friday on their own field, 20-0. After battling through a scoreless first half the Pipers kept the ball in the Bobcat end of the field most of the second stanza.

Two punt returns and a pass interception put the Pipers in scoring position with the first tally following a 27 yard punt return by Van Newberry to the Childress 38 yard line. Eleven plays later Van went in to score on a quarterback sneak from the one yard line with 5:20 left in the third quarter. Ronny Sipe's point after try failed and the Pipers took a 6

Early in the fourth quarter Larry Butler returned a 27 yard B-bcat punt 26 yards to the Childress 14 from where Childress was penalized to the six yard line for roughing and then to the three yard line for offside. Dan Newberry carried to the one and then Van piled in for the score on the sneak. Sipe's kick was good and the Pipers lead, 13-0, with 10:31

left in the fourth quarter.

After the exchange of a fumble for a pass interception, the Pipers started their final touchdown drive from the Bobcat 47. On short yardage plays the Pipers moved down to the Childress 25 from where Butler knifed through the Bobcat forward wall and raced in to score standing up. Sipe's kick was good and the Pipers had 20 points on the scoreboard as the clock showed 3:12 left in the game.

While the Bobcats lead in the statistics as the game ended this lead was gained in the first half as the Childress eleven held a decided edge in this department at the end of the first half. The Pipers trailed at the half in first downs, 4-2, rushing yardage, 86-43; passing yardage, 12-0.

The hard fought game was marked with six fumbles lost and five passes intercepted, only ones less than was completed by both teams.

The Pipers opened the game on their 36 and picked up a first down on the 48, but a penalty killed the drive as Dan's 10 yard, third down try was short and Van punted 39 yards to the 10. Childress fumbled the return and Curtis Payne recovered for the Pipers on the 25. Robert Pearce carried to the 15 for a first down but the Pipers fumbled on the next play. This was the last time the Pipers were able to move the ball in the first half as they punted twice and lost the ball on two pass interceptions.

Childress made their most serious threat early in the second quarter as they moved the ball from their 25 to the Piper six yard line. With first and goal to go, Nicky Moore crashed through the Bobcat line and set Charles Mitchell back for a four yard loss and after one running try and two passing tries the Pipers took over on their seven.

The longest run of the night was on a pass interception by Danny Neidecken, who picked off a Bobcat pass on his 10 and raced up the field for 67 yards to the Childress 33.

Top ground gainer for the night was Mitchell with 58 yards in 16 carries. High for Hamlin was Butler with 47 yards on six carries. Other Piper backs and their carries were Pearce, 13 for 42; Van Newberry, 12 for 19; Dan Newberry, 8 for 31; and Cleon Warner, 1 for 13.

Here's why Martha puts laundry in the freezer

A woman's work, especially the ironing, is never done. Sometimes Martha just has to take time out for shopping or visiting during the day. But sprinkled clothes can't be left to sour or mildew! So Martha pops them into a plastic bag and into the freezer they go. When she gets back, they'll be ready for her to start ironing again. Isn't it amazing how many ways women have learned to use flameless electricity to make living better ... and, it costs so little, you can use lots of it.

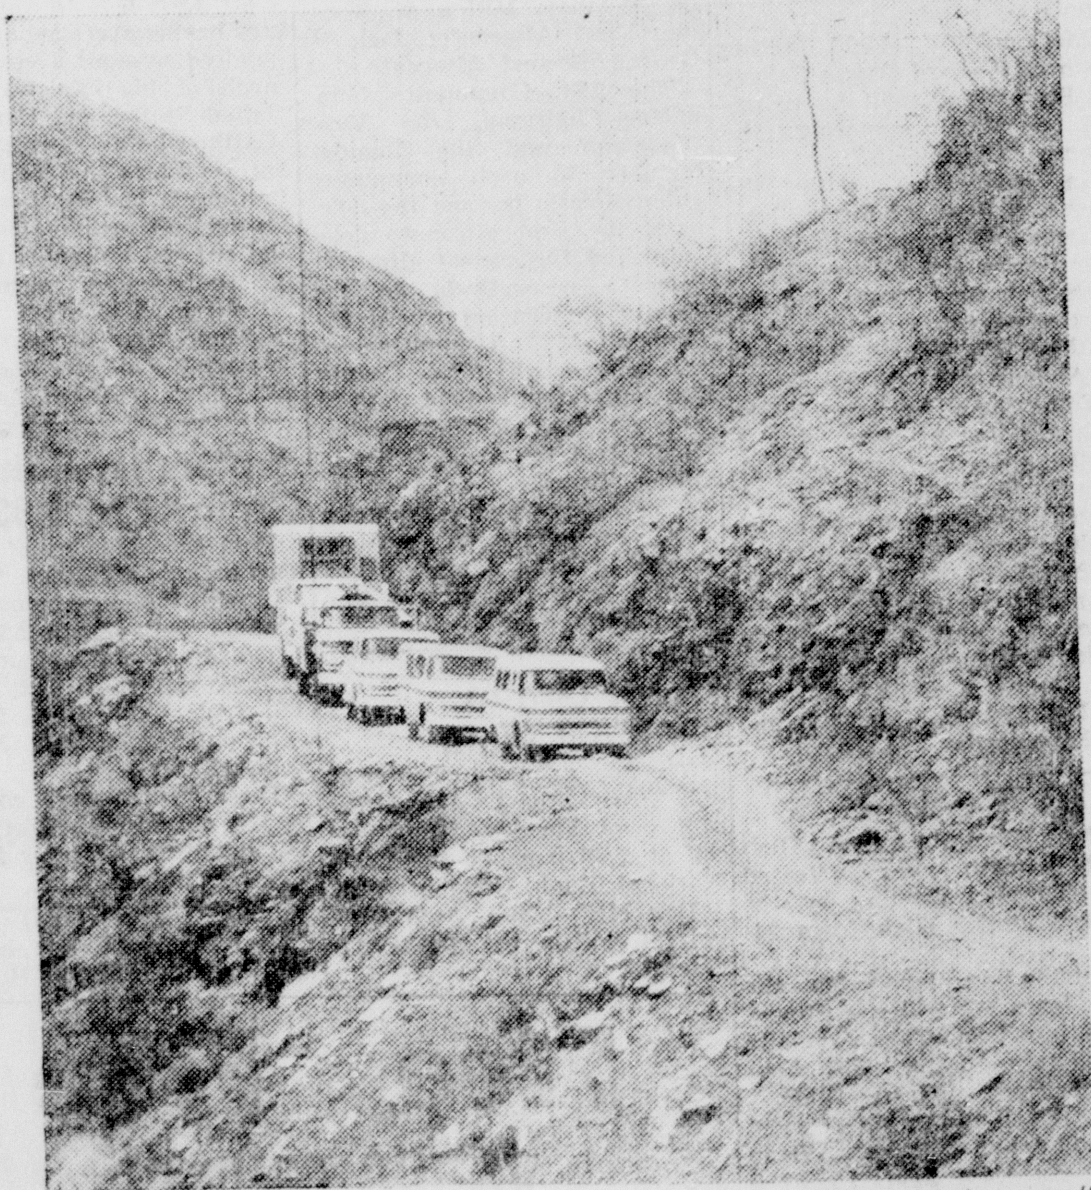

FREEZER TIP... Sprinkle your clothes and place in Freezer for about 10 minutes and they will be ready for ironing.

Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

Round trip from Detroit to the end of the Baja Peninsula is over 9,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

YOU HAVE A...

SERIOUS HEART CONDITION!

This warning by a doctor has made many stop and think seriously about the remaining years. When the doctor places you on a diet, or regulates your exercise, it is wise to obey.

Even more serious is the matter of making our hearts right with the Lord, for this deals with an eternity.

...*"Man Looketh on the outward appearance, but the Lord looketh on the heart."*

Regular worship is God's prescription... Attend Church Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

FAIRVIEW NEWS

By MRS. ELMER JOINER

Another good rain fell last night, what it is good for right now we can't say, but any way over an inch of rain did fall. Maybe it will cool things off a bit as the weather has been very hot and humid. Winter should be a welcome relief this year, since it has been such a hot summer.

One thing the rains are good for are the mosquitoes, they were at church in hordes last Sunday night and really carried off a lot of good Baptist blood. As blood thirsty as they

were, what denomination blood they got probably didn't matter to them.

Rev. and Mrs. Derrel Lewis and children, went to Lubbock Friday night and returned Saturday night, to visit her parents, Mr. and Mrs. J. W. Ray.

Mr. and Mrs. J. D. King of Midland, visited several days last week with her sister, Mr. and Mrs. Fred Rosenbaum.

Mrs. E. A. Henry reported a wonderful time last Wednesday, when she went to Rule to attend a picnic of her Sunday School class that she attended when she lived there, before moving to their present home.

Mr. and Mrs. Rex Jones and children, Abilene, ate supper with his parents, Mr. and Mrs. Mel Jones, Saturday night.

The Drake family are the proud owners of a new Ford, since last Wednesday.

Mrs. Winslow Gray visited with Mrs. Woodrow Goodwin Saturday morning. Visiting Mrs. Goodwin Saturday afternoon were Mrs. Billy McDuff and Mary Linda. Mrs. Goodwin was a widow last week as Woodrow spent the week in

Lubbock, attending barber school again.

The annual election of officers and teachers for the church and Sunday School was held in conference last Wednesday night. Most of the same ones were re-elected, as in such a small church there isn't much need to change, since you would have to do some thing else and you understand your present position. We are small in numbers but still have a full time church and invite any that are not attending church anywhere to come and worship with us.

It was good to see Mr. and Mrs. Tucker Newland and little daughter in church Sunday.

Mr. and Mrs. Waddell are as busy as can be working on their house, in South Hamlin, where they will move as soon as they get it repaired and fixed to their liking.

Mrs. Sue Henry, Rule, Mr. and Mrs. Clois Henry and children, Snyder, were visitors of Mr. and Mrs. E. A. Henry on Sunday.

The pastor and family, and Mr. and Mrs. Jimmy Joiner and children, ate dinner with Mr. and Mrs. Elmer Joiner on Sunday.

The oil derrick is still up and drilling is continuing on the well on the George Wain scott farm. At least it was at nine o'clock Sunday night, it

is one of those things that is there one time and not there the next. Last Thursday the tower was laid down, preparing to move, then at nine o'clock that night it was up again and drilling was resumed. There is a lot of speculation about it all, but nobody is counting on an oil well until they see the oil gushing out.

Friends of Mrs. Catherine Richie, were sorry to hear that after having so much trouble with her foot, the doctors have decided that it will have to be amputated. A message from her husband, Saturday night, reports that the operation had been set for Monday at 1:30 p.m. She is in the Hillcrest Memorial Hospital, Tulsa, Oklahoma, where the surgery will be performed. Our sympathy goes out to her family, but in times like this all we can do is bow to the inevitable.

Cotton pulling was in full swing in our community, but will be slowed down again by the rain. Old cotton is being harvested but the young cotton has never started to open and some are talking the possibility of machine harvesting after frost, which leaves the farmer more money out of the crop.

Since so many have lost cotton to hail, they are afraid to leave open cotton in the field very long.

RULES and REGULATIONS

1. Any person of good character residing within this trade area is eligible to enter the "Good Will" Subscription Campaign. No salaried office employee of The Herald will be permitted to compete. This not not apply to country or rural correspondents.
2. All nominations and enrollments must be approved by the campaign manager.
3. Any person can nominate himself or herself, or a friend can do it. Names of persons making nominations will not be divulged without the consent of the person making the nomination.
4. The "Good Will" Subscription Campaign opens officially on Thursday, September 20, and closes on Friday, Nov. 2. However subscriptions may be taken any time following this announcement.
5. Subscriptions should be reported in to the campaign department on regular report days two times a week—Tuesdays and Fridays. 50,000 votes will be given a candidate on each of these report days, or a total of 100,000 votes each week providing the candidates makes reports on each of these two report days.
6. Candidates will be paid weekly cash commissions of 20 per cent on all new and renewal subscriptions reported into the campaign manager.
7. It is to be understood that the winners of the first, second and third grand prize awards are to return these weekly advance commission checks in lieu of presentation of the major prize award, eliminating double compensation. This does not apply to those who fail to win one of the three major prize awards.
8. Free vote ballots will appear regularly in issues of this newspaper during early stages of the drive. Coupons in these nominations of 100 votes each will be published in this week's issue. After that, a special coupon good for 50 votes will be published, then, next, a 10-vote coupon and after that they will be discontinued. Each candidate will be permitted no more than ten of each denomination.
9. A vote ballot will be issued in exchange for all money paid on subscriptions according to the schedule of votes prescribed. The "Good Will" campaign free coupons will be recorded upon their receipt and then destroyed and the record kept in lieu of the coupon.
10. In case of the votes prizes equal in value and character will be awarded at the close of the campaign to those involved in the tie.
11. Votes will be the deciding factor in determining winners. The candidate with the highest total will win first grand prize; the second highest total number of votes, second grand prize, etc.
12. During the first week, 200,000 bonus votes will be issued on "full-limit" subscriptions, and during the third week half as many bonus votes will be issued on "full-limit" subscriptions.
13. Any subscription once turned in can be extended during either first or second period by making extension payment, and remainder of votes will be issued thereon as if full amount had been paid in the very beginning.
14. Votes issued to one worker cannot be transferred to another. Any worker attempting to intimidate or buy another worker's votes, or attempting to pool subscriptions from with an enrolled worker will be subject to disqualification from the campaign.
15. A list of workers and the number of votes accepted for publication will be published from time to time throughout the campaign. All subscriptions will be accepted for publication at the discretion of the campaign manager. The campaign manager reserves the right to make amendments to these rules so that the progress of the campaign may develop as desirable, such amendments being made in the interest of the campaign and the workers.
16. The campaign manager further reserves the right to remove any worker from the campaign for good sufficient cause and decisions of the campaign manager are final.
17. To insure absolute fairness in awarding of prizes, the prize will be brought to a close with a sealed ballot box. During the last period of the drive, a ballot box, locked

and officially sealed, will be placed in custody of a local bank, where candidates themselves may deposit their final collections and reserve votes in utmost secrecy. In this way, no one, including the publisher or campaign manager, can possibly know the actual strength of the various participants preceding any possibility of favoritism and insures fairness to the most minute degree.

18. No statements or promises made by any representative or participant varying from the rules and regulations appearing in the columns of this newspaper will be recognized by the publisher. In case of typographical or other error, it is understood that neither the publisher nor campaign manager will be held responsible except to make necessary corrections upon discovery of same.
19. This newspaper guarantees fair and impartial treatment to all participants, but should any question arise, the decision of the advisory board will be absolute and final.
20. Should conditions beyond the control of this newspaper or the campaign manager arise any time prior to the close of the third week of said campaign which would affect the campaign in such a way as to make it inadvisable in the discretion of the campaign manager or the publisher of this newspaper to continue the campaign the candidates and the campaign manager mutually agree that the campaign fund shall pay such candidates sufficient sums so that they shall receive 50 per cent of their total reported collections to date. Said 50 per cent shall include the regular 20 per cent commissions. It is mutually agreed that the candidates accept such settlement as payment in full for their services during said campaign.
21. In becoming a member of the "Good Will" Area Development Campaign, candidates must subscribe to the campaign rules.
22. Merchandise "Weekly" gift to be awarded as announced.

OPEN to ENERGETIC MEN AND WOMEN
IT COSTS NOTHING TO TRY

Plan in Brief

The object of the big distribution is two-fold: Primarily to increase the already large subscription list of the Hamlin Herald and to advance subscriptions and at the same time afford our friends and readers an unparalleled opportunity to profit in a big way through their spare time during the next few weeks. So it is that a plan that works both ways and to the ultimate good of all concerned.

In order to gain this end quickly and advantageously, one of the most valuable and attractive lists of prizes ever offered by a local newspaper in this section of the country has been made ready for distribution among those who participate most heartily. Ambition and energy are the only requirements for success. The plan adopted is straightforward and simple and is fully outlined in this announcement.

Let it be understood at the outset that it is not a "get-rich-quick" contest, but strictly a legitimate competitive proposition for enterprising men and women and one in which no element of chance enters. One feature of this competition is the fact that there will be no losers in this race.

State Observing School Safety This Week

Texans were urged today to think, talk and practice safety in observance of School Safety Week, September 17-23.

J. O. Musick, General Manager of the Texas Safety Assoc-

iation, has challenged Texans to make this week an accident-free week for our state's school children.

He provided a think, talk and practice formula to achieve this goal.

Musick said, "Take five minutes extra a day—THINK for school children—they sometimes forget their safety lessons; TALK safety to your family, neighbors, friends and school officials; and PRACTICE safety at home and in your driving, especially around the schools."
